HALAMAN PENGESAHAN

Tim Penguji

1. Prof. Dr. Dra. Hj. Asni Johari, M.Si
   NIP. 196811081993032002
   Ketua

2. Dra. Hj. Muswita, M.Si
   NIP. 196709211995012001
   Sekretaris

3. Winda Dwi Kuttika, S.Si., M.Si
   NIP. 197909152005012002
   Pengisi Utama

4. Dr. Afrin Hamidah, S.Pt. M.Si
   NIP. 197304211999032001
   Anggota

5. Dr. Agus Subagyo, S.Si. M.Si
   NIP. 197308072008031001
   Anggota

Mengetahui,
Dekan FIP Universitas Jambi

Prof. Dr. rer. nat. Astrial, M.Si
NIP. 196308071990031002

Mengetahui,
Ketua Jurusan PMIPA

Dra. H. Sofiidar, M.Si
NIP. 196612231993052009

BAB I PENDAHULUAN
1.1 Latar Belakang Masalah ............................................................................................................. 1
1.2 Identifikasi Masalah .................................................................................................................... 4
1.3 Batasan Masalah ........................................................................................................................ 5
1.4 Rumusan Masalah ....................................................................................................................... 5
1.5 Tujuan Penelitian ....................................................................................................................... 6
1.6 Manfaat Penelitian .................................................................................................................... 6

BAB II KAJIAN TEORETIK
2.1 Kajian Teori dan Hasil Penelitian yang Relevan ..................................................................... 7
2.1.1 Ulat Daun (Diaphania indica) .............................................................................................. 7
2.1.2 Insektisida Nabati ................................................................................................................ 12
2.1.3 Tanaman Bengkuang .......................................................................................................... 13
2.1.4 Tanaman Mentimun ............................................................................................................. 16
2.1.5 Penelitian yang Relevan .................................................................................................... 18
2.2 Kerangka Berfikir ...................................................................................................................... 18
2.3 Hipotesis ................................................................................................................................... 18

BAB III METODE PENELITIAN
3.1 Waktu dan Tempat Penelitian ................................................................................................. 21
3.2 Desain Penelitian ...................................................................................................................... 21
3.3 Teknik Pengumpulan Data ..................................................................................................... 22
