

## **CHAPTER V**

### **CONCLUSION AND SUGGESTION**

This chapter aims to presents the conclusion and suggestion based on the finding and discussion of the previous research.

#### **5.1 Conclusion**

The study investigated the teacher's hand-written commentary on students writing at SMAN 4 Batang Hari. This chapter based on the finding and discussion in the previous chapter. There are two conclusions of this study. First, the second-year students, XI IIS 2 class of SMAN 4 Batang Hari prefer the teacher to give them the End comments. The students strongly agree to the End comments. The comments that followed by corrections, solutions and suggestions. They prefer to the End comments because the End comments clear enough and more useful rather than Body and Margin comments.

Second, the students strongly agree the teacher give them comments to where the mistake even errors on their papers are, the reasons they read the comments not because they interested in it, but the students want to know their weak and strong points. They read the comments because they want to improve their mistake, so they prefer to End comments to make them easier to improve the mistakes.

## 5.2 Suggestion

This part presents the suggestion based on the finding and discussions of this study.

### 1. First for English teacher

English teacher at SMAN 4 Batang Hari, especially the teacher who gives students the teacher's hand-written commentary. The teacher's must use End comments more than Body and Margin comments, because End comments more useful and clear for the students. The teacher can use body comments such as give the students crosswise or check mark, but followed by the correction where the mistakes are, make the students easier to revise their paper.

### 2. For the students

After the teacher returns the paper, do not discard the papers. Read the comments and ask clarification to the teacher. Then if any problem or corrections from the teachers, just revise it. Revise the paper with the solutions and suggestion from the teacher to make it easier.

### 3. For other researchers

Researchers are expected to conduct the research related to this topic in the future. Researches with various ideas and various analyze, the researchers prefer to conducts the research related to this topic by using classroom action research or experimental research to get deeper answers.
