Dear Dwi Agus Kurniawan,

Thank you for your interest in publishing your work in HRPUB.

Your manuscript has now been peer reviewed and the comments are accessible in Word format.

Usually, we invite 2 peer reviewers for one manuscript. Compared with both review reports, the overlapped parts can be ignored.

Please confirm all comments from the two reviewers have been effected in your paper.

We would be grateful if you could address the comments of the reviewers in a revised manuscript and answer all questions raised by reviewers in a cover letter. Any revision should be made on the attached manuscript.

Please complete the attached Publication Agreement and send a scanned version to us.

Please submit the revised paper to us by email in MS Word or LaTeX format within two weeks. Currently, the online submission system only accepts newly submitted papers.

Look forward to receiving your revised manuscript as soon as possible.

Please acknowledge receipt of this email.

Best Regards

Daniel Anderson

Dear Dwi Agus Kurniawan,

Thank you for your kind email.
We have received your revised paper and the signed publication agreement. If further revision is not required, you will expect an Acceptance Letter in a week.

Best Regards

Dear Dwi Agus Kurniawan,

Thank you for your interest in publishing your work in HRPUB.
We have received your revised paper. However, we did not see obvious revisions.
Could you please explain what you have done for defects specified in the review report in a cover letter?
Looking forward to hearing from you soon.

Best Regards

Dear

Good Evening Dr. Daniel

I will explain what I have revised before.

based on the results of the review that you have sent that the mipa contained in my article consists of science and physics mathematics. However, according to the current curriculum in Indonesia, MIPA does not consist of mathematics, science and physics anymore but only science and physics because mathematics has been separated separately. and assessment is the most important thing in education, what now has entered the industrial revolution 4.0, so the authors use electronic based assessment to support education based on the industrial revolution 4.0

Thank you

Best Regards

Dwi Agus Kurniawan
