

## CHAPTER V

### CONCLUSION AND SUGGESTION

#### 5.1 CONCLUSION

This research aimed to identify the types and the reasons of code-mixing used by Youtube vlogger in this case by Boy William and Maudy Ayunda in the youtube video. In this research, the researcher meant to explore the types of types and the reasons for code-mixing based on the experts. The sources of the data were the transcription from one of Boy William as Youtube Vlogger, the video entitled “Maudy Ayunda di Omongin Seniornya Ketika Ospek di Stanford” Besides, the researcher was helped by the transcription to look the types of types and the reasons of code-mixing in the video. Eventually, the researcher had got data and analyzed each form based on the context. In conclusion, the researcher found several types and reasons of code-mixing that were used in the YouTube video.

Based on the findings and analysis of whole collected data, it may be seen that some of utterance in the video used 24 utterances for Alteration, 21 utterances for Congruent Lexicalization and finally 24 for Insertion, these are for the type of using code-mixing. For the reasons of using code-mixing, the researcher found 37 utterances for Participant and role relationship, message intrinsic has 12 utterances, language dominance and vocabulary got the same 7 utterances each, 3 utterances belong to situational factors, and finally, the least is prestige which owns 2 utterances. For further information about this, the researcher concluded and served this data into the table as follows:

<b>NO</b>	<b>Type of code mixng</b>	<b>Amount of utterances</b>
1	Alteration	24 utterances

2	Insertion	24 utterances
3	Congruent Lexicalitation	21 utterances

<b>NO</b>	<b>Reasons of code-mixing</b>	<b>Amount of utterances</b>
1	Participant and Role Relationship	37 utterances
2	Prestige	2 utterances
3	Situational Factors	3 utterances
4	Message Intrinsic	12 utterances
5	Language Dominance	7 utterances
6	Vocabulary	7 utterances

## **5.2 SUGGESTION**

The researcher hopes that this paper could be very useful or the reader, and the result can be used as references for further and related research. Moreover, for other researchers who would be interested in taking the similar topic, it is suggested that they can develop the research by using other theory and point of view to create the study to be even better and more specific in hoping that the analysis of next researcher will be more various, exemplary and interesting.
