EDITORIAL REVIEW

ABSTRACT ID: ICSE 2017- 256

TITLE: THE EFFECTIVENESS OF THE ANDROID BASED LEARNING MEDIA WITH APPY PIE IN EKONOMI INDONESIA COURSE

FORMATTING COMMENTS: As per journal guideline please make full article 3 to 5 pages including references with single space. Cite references numerically as superscripts in the text and list at the end of the article. Figures must have proper source. Reference example: C. D. John and R. E. Ismail. Journal of Social Science. 1, 79 (2017)

REVIEWERS OVERALL COMMENT: The topic of this article looks interesting. However, many amendments required before publication. Please write your abstract in one paragraph, since abstract cannot be in more than one paragraph. Please remove numerical values from abstract only give their meaning in word. Another major concern is poor English language which required careful proofread.

RESULT:

Accepted with minor corrections

INSTRUCTION TO THE AUTHORS: The full papers need to be a maximum of 5 pages (Single spacing with word font 12) only. The 5 pages includes the references also, the journal will charge USD50 for each page after 5 pages. Please send us final camera ready paper with all the needed correction incorporated and along with the plagiarism report & the Copyright Transfer Agreement (CTA). The plagiarism excluding the reference should not be more than 15%. Please refer to the journal format before you send us the final camera ready paper to icse@headwayglobal.net.

SPECIAL INSTRUCTION TO THE AUTHORS:

1. Within the text, the referencing number should start with 1 and follow the sequence accordingly.
2. The reference number has to be superscripted within the text.
3. Follow the Vancouver referencing format.
4. Please mention the corresponding author email in the article.
5. If your article have figures and table which have been extracted from the other work (although refer is provided and work has been cited). Please send us the permission acquired from the source author prior to reprint. However, we recommend you to remove figures and tables which are not author’s own work to avoid inconvenience in future.
