Keyword: Perception, E-Learning

This research aims to know about what are the students' perception on learning English through E-Learning at English Education Study Program Jambi University. The sampling technique in this study used the purposive sampling. Respondents in this study were 35 students which were due to limited networks and facilities so only a few students could answer the questionnaire from the researcher. The method of this research is quantitative research by using close-ended questionnaire. The data of this research was elicited by distributing questionnaires via Google form to students. Overall, students' perceptions on learning English through E-Learning are good.
