

## ABSTRAK

Bangunan Pejabat administrasi Belanda memiliki bentuk arsitektur yang khas dan merupakan fenomena budaya yang unik karena adanya percampuran budaya antara bangsa Penjajah dengan budaya lokal. Arsitektur Pejabat administrasi Belanda di berbagai tempat di Indonesia memiliki perbedaan serta karakteristik tersendiri. Berdasarkan hal tersebut, dilakukanlah penelitian terhadap ragam bentuk arsitektur rumah dinas pejabat administrasi Belanda yang ada di Kota Sawahlunto, untuk mengetahui bagaimana ragam bentuk, karakteristik rumah Dinas dan melihat pengaruh gaya arsitektur pada rumah dinas Pejabat administrasi Belanda di Kota Sawahlunto.

Penelitian dilakukan dalam beberapa tahap yaitu pengumpulan data dilakukan dengan cara deskripsi, dokumentasi, pengukuran 4 bangunan rumah dinas. Selanjutnya dilakukan analisis arsitektural berdasarkan aspek *landscape*, interior dan eksterior. Hasil penelitian menunjukkan bahwa bangunan rumah dinas memiliki bentuk yang beragam. selain itu diketahui juga bahwa terdapat pengaruh gaya arsitektur gaya *indische empire style*, arsitektur mediterania pada rumah-rumah dinas pejabat administrasi Belanda di kota Sawahlunto.

**Kata kunci:** Rumah Dinas, Bentuk, Karakteristik, Gaya Arsitektur

## **ABSTRACT**

*Dutch administrative officer buildings have a distinctive architectural form and are a unique cultural phenomenon because of the mixing of cultures between the colonial nation and local culture. Dutch administrative officer architecture in various places in Indonesia has its own differences and characteristics. Based on this, a study was conducted on the Variety of Architectural Forms of the Dutch administrative officer Service House in Sawahlunto City, to find out how the Variety of Forms, characteristics of the Official House and see the influence of architectural style on the Dutch administrative officer Government Office House in Sawahlunto City.*

*The research was conducted in several stages of research methods, namely data collection, description and analysis. Data collection conducted by description, measuring, and imagery recording of 4 official house buildings. The next step is carried out by analysing its interior, exterior and landscape aspects. The results showed that the official housing buildings have various forms. Besides another findings of this research is that there are several architectural styles influences found on the official houses of Dutch administrative officials in the city of Sawahlunto, such as Indische Empire and Mediterranean architectural styles.*

**Keywords:** *official residence, characteristics, architectural style*
