BIG DATA IN AGRICULTURE (BDA)

This is an open access journal distributed under the Creative Commons Attribution License CC BY 4.0, which permits unrestricted use, distribution, and reproduction in any medium, provided the original work is properly cited

Although data is important for all players in the value chain, the primary end-users are the farmers and they are the most novice players in the big data approach, particularly those in developing countries. Given the increasing population and the increasing growth of farms – about 500 million of which are smaller than two hectares – on ever-decreasing land availability, the challenge raises many questions.

Dear Prof/Dr.,

Attached is your paper Galley Proof entitled "*The Analysis of Replanting Model on Smallholders Oil Palm in Muaro Jambi District Jambi Province*". Please check and confirm if there are any minor corrections? We can proceed to publish online at journal web-page [Big Data in Agriculture \(BDA\)](#) Issue 1, 2022.

Please acknowledge the same within 48 hours. In case there is no response, we assume you agree to publish this paper as it is.

Look forward to hearing from you soon.

Have a nice day!

Best Regards,

Tasbia Ab Rajul (Mrs.)
