Effects of dietary calcium levels and vitamin D3 level on laying performance, eggshell quality, and blood biochemistry in laying hens

Hwan Ku Kang, Ph. D.; Chan Ho Kim, Ph. D.

Dear Dr. syafwan,

Thank you for reviewing the above referenced manuscript. I greatly appreciate your contribution and time, which not only assisted me in reaching my decision, but also enables the author(s) to disseminate their work at the highest possible quality. Without the dedication of reviewers like you, it would be impossible to manage an efficient peer review process and maintain the high standards necessary for a successful journal.

I hope that you will consider Poultry Science as a potential journal for your own submissions in the future.

Kind regards,

Sunday Adedokun, PhD
