CHAPTER V
CONCLUSION AND SUGGESTION

5.1 Conclusion

According to the findings and discussion of the research in the previous chapter, the researcher can conclude that 20 data were collected in the form of taboo words contained in the series Never Have I Ever season 1. The researcher found three types of taboo words based on Allan and Burridge. There are bodies and their effluvia, the organs and acts of sex, micturition and defecation and diseases, death and killing (including hunting and fishing). The occurrence of bodies and their effluvia is 7 times, the organs and acts of sex are 10 times, and disease, death, and killing (including hunting and fishing) is 3 times. The result shows that the organs and acts of sex are the most common kind of type of taboo words found in the series Never Have I Ever season 1.

This study also was conducted to analyse the translation strategy using Baker's theory. The researcher found five translation strategies based on Baker. There are 12 data translated with translations by a more neutral/less expressive word, 2 data are translated with translations by cultural substitution, 3 data are translated with translations using a loan word or loan word plus explanation, 2 data are translated with translations by paraphrasing using unrelated words, and 1 data translated with translations by omission. It can be seen that taboo words in the series Never Have I Ever season 1 are mostly translated using translation by a more neutral/less expressive word.

5.2 Suggestion

Based on the conclusion and implication above, there are some suggestions proposed as follows:

1. To the students of English Education.

This research is expected to provide knowledge as a reference for English education students, especially about taboo words in series.

2. To the other researcher.

This research can be a reference for researching taboo words. Since the translation of taboo words draws attention to be explored, further study is necessary. Therefore, researchers are expected to develop their research on taboo word translation.
