Putri, Dea Amanda. 2024. *The Teachers' Challenges Using One Minute Talk Technique in Teaching Speaking at SMP N 1 Kota Jambi*. A Thesis, Language and Literature Department, FKIP Universitas Jambi,
Supervisor: (I) Duty Volya, S.Pd., M.Pd, (II) Dr. Rd. M. Ali, S.Pd., M.Pd.

Key words: Teacher challenges, one minute talk technique, teaching speaking, SMP Negeri 1 Kota Jambi.

This research aims to find out how teachers use learning by applying the One Minute Talk technique to aspects of speaking ability. Another aim is to find out the challenges faced by teachers during learning using the One Minute Talk technique. This research was carried out at SMP 1 Jambi City in class VII even semester of the 2022/2023 academic year. Qualitative methods were used as the methodology for this research. The instrument in this research is interviews. This research interviewed an English teacher who had implemented the one minute talk technique as a participant. The research results show that teacher in implementing the One Minute Talk technique are guided by steps consisting of Introduction to Curriculum, Introduction to Engineering, Engineering Modeling, Practice, Feedback, Continuous Improvement, and evaluation of students' values and experiences in learning. The research findings show that this research also reveals several challenges experienced by teachers when implementing speaking lessons using the One Minute Talk technique. Researchers can conclude that the challenges faced by teachers are regarding student anxiety and difficulty in managing time.
