

## **CHAPTER 5**

### **CONCLUSION AND SUGGESTION**

After finishing the whole steps of this research, the researcher drew a conclusion referring to the study's findings, and after that, the writer gave a suggestion.

#### **5.1 Conclusion**

Movies expose students to real-life spoken English, immersing them in the language and boosting their listening comprehension and vocabulary acquisition. This natural exposure complements formal studies, aiding learning journey even without a focus on grammar rules. Furthermore, movies act as cultural gateways. They bring them in imagination visual experience to different countries and cultures, broadening their understanding of accents and how language is used in various contexts. This exposure not only enhances students' English skills but also fosters a deeper appreciation for the world around them.

This research, through the voices of English education students, shows that movies can help students learn English. Movies provide exposure to natural language, diverse vocabulary, and cultural nuances, providing a more enjoyable and well-rounded learning experience. The power of movies to shape not just skills, but also students' spirit to learn English. Future research could explore specific movie-watching strategies students employ to maximize these benefits. By harnessing the power of entertainment, student can create more engaging and effective language learning experiences for themselves.

## **5.2 Suggestion**

Students can enjoy movies to enhance their studies by following a structured approach as learning by fun. This approach can help them improve specific skills like listening comprehension. Starting with movies that have subtitles allows for gradual exposure to spoken English. Later, transitioning to subtitle-free viewing can further improve listening skills. Movies can also help build vocabulary by taking note of unfamiliar words and phrases while watching. Additionally, movies offer a window into different cultures and accents, enriching students' understanding of how English is used in real-world situations and fostering cultural awareness.

To maximize learning, there are some recommendations. Choosing movies that align with your interests will help you stay engaged. Active viewing involves taking notes on new vocabulary, pausing to analyze pronunciation, and discussing the movie in English with others to solidify your understanding. There are even online tools designed specifically to help you learn English through movies.
