CHAPTER V

CONCLUSION AND SUGGESTION

This chapter provides the conclusions and suggestions for this research. The conclusions and suggestions are taken from the finding and discussion of this research.

5.1 Conclusion

There is one research problem in this research. It is about the students’ perception toward the use of context clues technique in reading comprehension. In this research, the research problem answered by distributing a questionnaire to the participants. Some theories of context clues were used to create the questionnaire. The questionnaire is implemented to the fourth-semester students at English Department Jambi University.

The whole findings of the students’ perception toward context clues in reading comprehension at Jambi University showed that majority of participants thought that context clues are a technique that can help them to find out the meaning of the unfamiliar word in a text, besides that context clues also the better technique and can increase the students vocabulary. By using context clues it makes the students enjoy reading a text and get new knowledge of the new word within a text. By looking at the findings of context clues statements, the result showed that the overall of participants thought positive perception about context clues.

5.2 Suggestion

Based on the findings of this research, the teacher of English Department in Jambi University can used the context clues in reading comprehension as the alternative technique to help the students’ find out the meaning of the unfamiliar words in the text. For a further
study with the relevant topic may consider carrying out this study with a large scope and more participants to get a more general result.
